# XPP Tabular eLearning

The aim of this course is to give learners a solid foundation in understanding and working with tables in XPP (XML Professional Publisher).

## TARGET AUDIENCE

This course is designed for XPP style developers and users. Whether you're new to XPP or looking to enhance your skills, we'll cover essential tools and concepts that will enable you to manage and compose tables effectively.

## LEARNING OBJECTIVES

- Understand Tables in XPP.
- Use the XPP Tabular Tools.
- Be able to describe the XPP Classic, HTML and CALS table models.
- Understand how to create and compose tables.
- Know the basics of managing Tabular Specs.
- Be able to use General/Columns, Gutters, Ruling, Alignment, Composition Specs.
- Understand how to use Table Notes.

## COURSE DURATION

The course is 6.5 hours in duration and can be viewed and then used as a post-course reference tool. This course is broken into 11 modules covering all areas of XPP Tabular. Once you complete one module, the next one will become available.

## COURSE DETAIL

**The course will cover the following topics:**

- Understanding Tables
- XPP Tabular Tools
