Contenta Cloud S1000D

A secure, scalable, integrated S1000D solution for the enterprise

Whether you're new to S1000D or an expert, Contenta Cloud S1000D makes project creation and delivery easy every step of the way.

- Deploy as a public cloud, private cloud or on-premises solution.

- Simplify S1000D project set-up with an intuitive user interface and built-in wizards.

- Author with ease via the integrated authoring environment as familiar as Microsoft Word.

- Collaborate securely with contributors and reviewers via the integrated S1000D CSDB.

- Create compliant publications and generate PDF or IETP user manuals using the drag-and-drop publication module builder.

- Flow seamlessly from content creation to publication to deployment in LiveContent™, the market-leading IETP viewer.

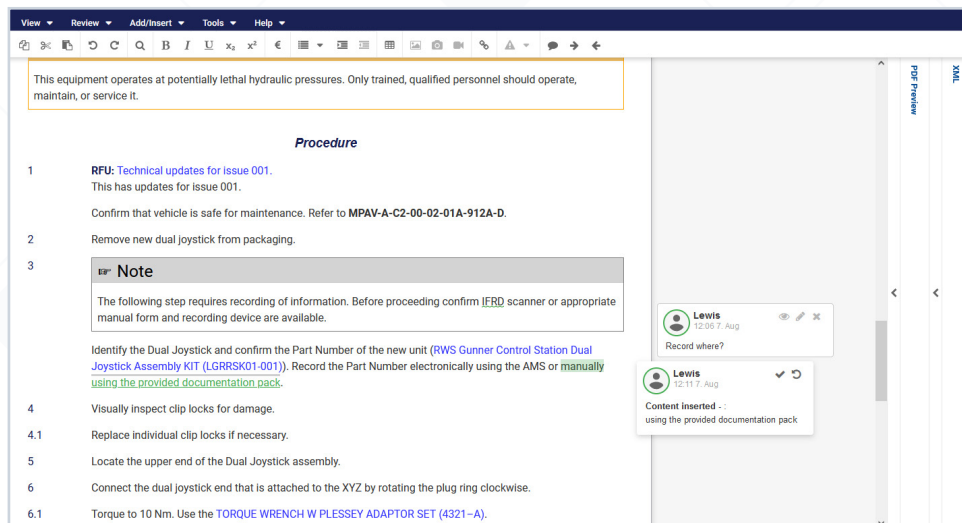

Contenta Cloud S1000D dashboards

Harness the power of S1000D without the complexities

Contenta Cloud S1000D™ is designed with the end-user experience in mind. Start authoring in S1000D with tools that work the way you do.

Simplified authoring tool

Our browser-based S1000D editor is designed with a familiar, Word-like look and feel and continuous schema validation. This makes it easy for contributors to confidently create S1000D data modules with little to no XML knowledge, expediting the timeline from onboarding to productive authoring. The authoring environment is fully integrated into the CSDB so that you can insert graphics and data module references with one click.

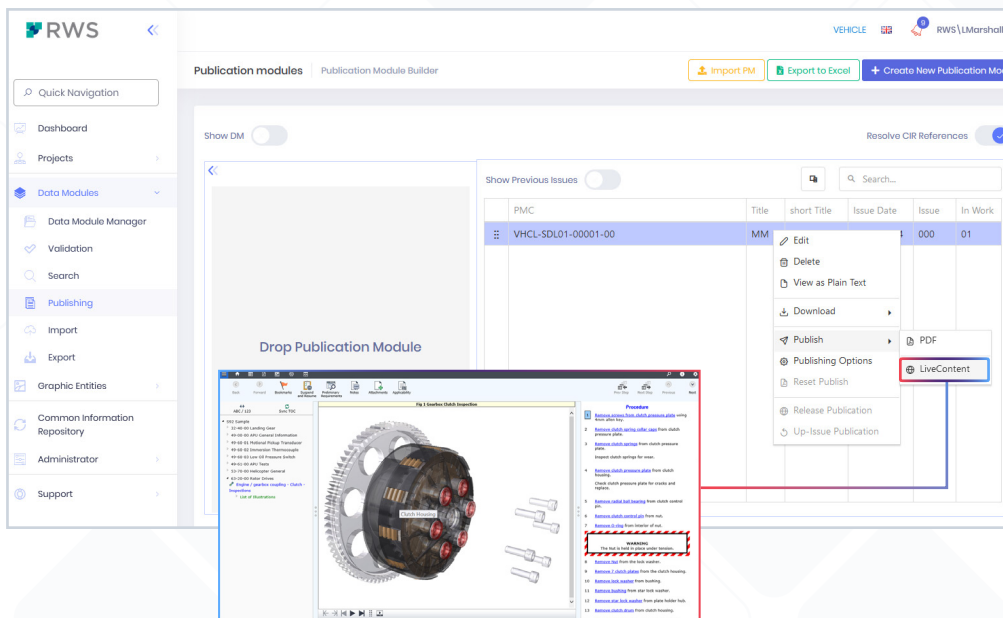

Browser-based S1000D editor

Integrated S1000D CSDB

The flexible, modern S1000D CSDB has all the features you need to manage and deliver your technical documentation. You can easily import project business rules (BREX) and common information repositories (CIRs), and the publication module (PM) builder makes publishing as easy as drag and drop.

Integrated publisher

Publish data instantly with the drag-and-drop builder and one-click publishing. Print your publications directly from the S1000D CSDB or editor to either PDF or LiveContent – the market-leading IETP viewer.

Direct publishing to LiveContent™ – the market-leading IETP viewer

Contenta Cloud S1000D

Built for security

Contenta Cloud S1000D is a secure environment for collaborating on S1000D documentation of a sensitive nature. It's designed with robust encryption for data both at rest and in transit, ensuring your data is always secure.

Built for enterprise scale

Built for the needs of the enterprise, Contenta Cloud S1000D is not only secure, but also scalable. With public, private or on-site deployment options, it can scale to meet your needs across the enterprise and beyond.
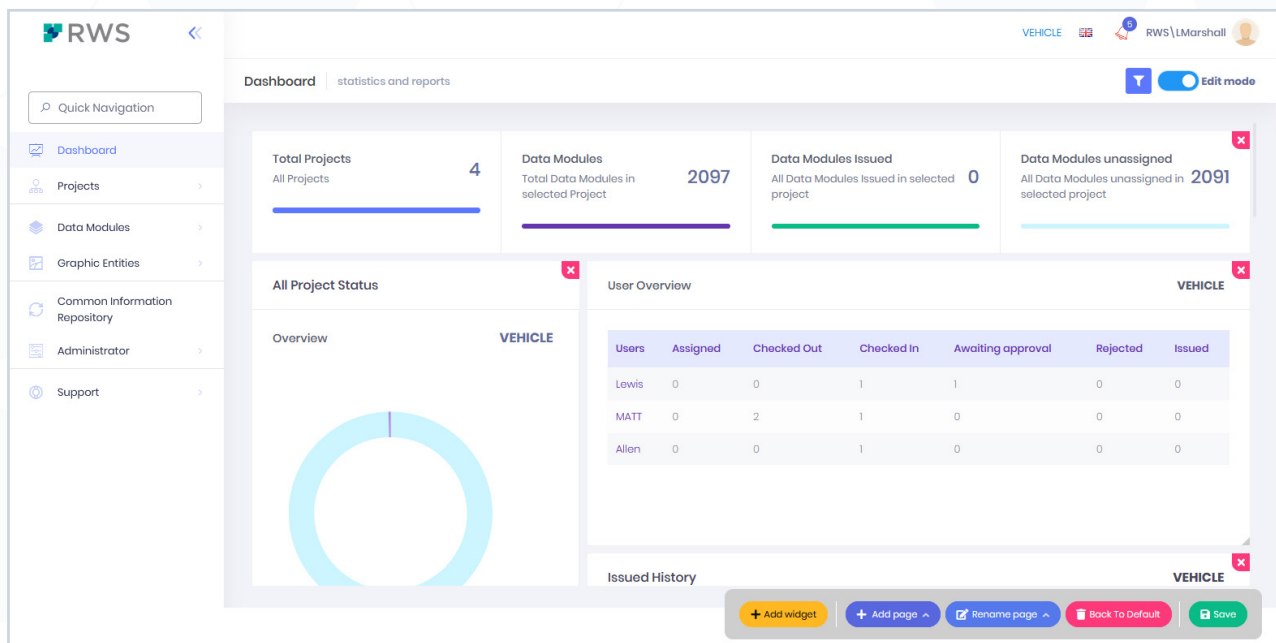

Built for ease of use

Modern wizards and tooltips make initial project set-up quick and easy. You can assign users, roles and permissions and set up a team workflow in an instant. The fully customizable dashboard helps you monitor user workload, project progress and the status of each dataset at a glance.

Built for collaboration

Secure collaboration in real time with your colleagues, customers and distributed teams throughout the supply chain. Create custom roles, granting specific permissions within your team and across the supply chain. Contenta Cloud S1000D will ensure everyone is alerted when they have a task to complete or a review is needed, and that everyone has access to the resources they need.

Whether you're looking for smarter ways of collaborating with suppliers and partners or you're new to S1000D, Contenta Cloud S1000D is a secure and easy-to-use solution for authoring, sharing and publishing technical documentation.

Customizable dashboard

Why Contenta Cloud S1000D?

- **Ease of use:** Simplified authoring and modern user interface deliver efficiency for the new generation of technical publications specialists.

- **Management insights:** Summary dashboards provide an overview of your team's projects and workloads.

- **Cross-team and cross-organizational collaboration:** Bring other departments, suppliers and customers onto the platform as contributors or reviewers with powerful and flexible permissions.

- **Advanced data reuse:** Simple creation and editing of common information repository (CIR) data modules.

- **Drag-and-drop publication module builder:** Easily build your publication module structure then drag your data modules into the headings.

- **Simplified integration of graphics with editor:** Add graphics directly from the common source database, with simple search and one-click insertion.

- **Complete S1000D validation:** Eliminate errors and ensure schema compliance and BREX validation, as you work or on demand, across the entire dataset.

- **Rapid creation and batch uploading:** Guided, step-by-step process to create new data modules or create via a batch upload directly from Excel.

- **Custom workflows:** Create custom workflows with multiple reviewers to suit the unique structure of each S1000D project.

- **Smooth project start-up:** Custom training, S1000D project accelerators and customization of the LiveContent IETP viewer in your enterprise environment.
