acodis

An enterprise data extraction platform that unlocks unstructured data for use in structured content and GenAI applications

Tridion + Acodis:

Advanced document intelligence for regulated industries at speed and scale

Do you need to...

- Access and transform data from large, unstructured documents (PDF, Word, scans, etc)?
- Accelerate time to market and reduce manual document processing?
- Maintain the highest security and privacy standards with external solutions?

We can help!

With Tridion as your content management system + Acodis, you can...

- Integrate GenAI applications into existing workflows, ensuring data quality
- Extract insights from vast and complex sets of documents
- Set up intelligent automation, running suitable processes with seamless system integration and compliance

With the Tridion + Acodis solution, you can expect...

- LLM-powered document workflows specific to your use cases
- Comprehensive output of documents including metadata and data that can be traced back to the source
- Best user experience for subject-matter experts with human-in-the-loop systems
