

The smart CMS for global enterprises

Intelligently connecting people, processes and information
and ensuring your content is ready for the future

Platform empowering non-technical users to create and manage next-generation search, chatbots and modern AI copilots, all leveraging generative AI

Tridion + ai12z:

Enhance user engagement on your website, streamline complex tasks, and drive key business outcomes

Do you need to...

- Effectively answer visitor queries on your site?
- Reduce operational costs while achieving significant business growth?
- Harness the full potential of GenAI for dynamic and personalized user interactions?

We can help!

With Tridion as your content management system + ai12z, you can...

- Leverage AI-powered search and chat for accurate, instant responses to user queries
- Offer an AI digital assistant to guide users through information discovery and transactions
- Empower content creators to identify gaps and enhance SEO with AI insights

With the Tridion + ai12z solution, you can expect...

- Heightened customer satisfaction through improved support and engagement
- Substantially reduced operational overhead through integrated AI automation
- Tangible growth in business metrics driven by enhanced user experiences
